Fixed normal and false-alarm examples

a TN | ID 20000

Native 636 x 231 px; frozen first TN

Original RGB | Canonical GT | Probability

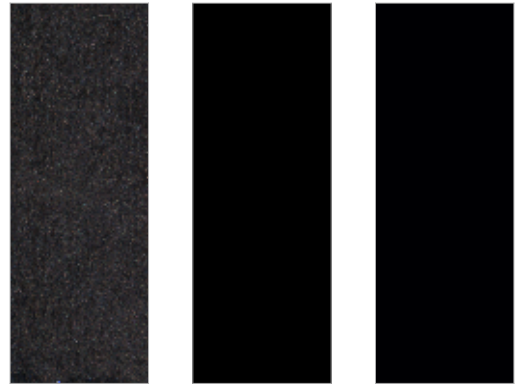

Native max s = 2.02042952e-06 <= original tau

GT-positive native pixels: 0

b FP | ID 20004

Native 632 x 230 px; frozen first FP

Original RGB | Canonical GT | Probability

Native max s = 1.27135063e-05 > original tau

GT-positive native pixels: 0

Anomaly probability: common linear [0,1]

Original tau = 7.264203168233501e-06. Full native canvas; no contrast stretch, smoothing or crop.

Four predefined examples across two pages; no additional independent validation or screen evidence.
